Next actions

high: Review fibre composition with percentages and its supporting sources. - owner Sourcing

high: Obtain and verify manufacturing country. - owner Sourcing

medium: Review care and use and its supporting sources. - owner Brand operations

medium: Review certifications and its supporting sources. - owner Compliance

Limitations and handling

This is a pilot readiness report using customer-provided records. It does not determine legal applicability, verify all supplier claims, certify a product, publish a formal Digital Product Passport, or file with a registry. Supplier and facility records are restricted by default. The public preview includes only explicitly approved fields. Evidence files are not included in this ZIP.

Evidence records referenced: 2. See the checklist and data files for the full machine-readable detail.
